

CDUCC Xmas Party at Lakeside Raceway

Sunday 3th December 2017

This year for a change, the Christmas party was held at the Lakeside Raceway in their Function area. Part of the attraction was that any member who bought their Corvette along would be able to drive on the track during the lunchtime break by the Race Car club who were using the track that day. This attracted a lot of the C2, C3, C4, C5, C6 and C7 owners who gleefully lined up at the track entrance once the track officials gave them the green light at approximately 12:30pm.

While those who did not want to "drive the track" carried on catching up with each other, the "Revheads" were burning up the track (they had been told the maximum speed was 120km/hr but we think a few of them "accidentally" exceeded this limit!). Much fun was had by all on the track.

After the track side hi-jinks, Lunch was served up and everyone quickly tucked in to the food which was followed up by a wide and delicious array of desserts. The Raffle, the Lucky Door and the Secret Santa followed this to end of a rather enjoyable day for everyone. Goodbyes were said and all departed (although we are not too sure how far poor old Colin got as he had a feeling that he had done a wheel bearing on his "hotted up C3").

Cheers
The Ed
